## **The Green Room – Certified Sustainable Luxury Tourism™ from Navigate Oceania**

OCEANIA (May 2010). Navigate Oceania announces The Green Room - Certified Sustainable Luxury Tourism™. This new, sustainable tourism benchmarking programme matches industry ideals of green, clean and sustainable environments with new accreditations for indoor environments.

Exclusively designed for the small luxury lodges, resorts and spa hotels of the Navigate Collection, the certification supports operators to develop stewardship programmes that are relevant, achievable and credible to the industry and discerning customer alike. This can mean reducing chemicals in cleaning products and on painted surfaces, reducing pesticides in rooms, public spaces and gardens, and encouraging kitchens to choose local and organic produce.

The Green Room means certified new standards of all-round healthy living throughout The Navigate Collection of small luxury lodges, resorts and spa hotels, which we believe will help further inspire visitors to New Zealand.

The Green Room it operates in alongside Green Globe, the worldwide benchmarking, certification and performance improvement system and with Qualmark Environmental, New Zealand's official mark of quality that assesses environmental performance and initiatives in energy, waster, water, conservation and community service.

The Green Room – Certified Sustainable Luxury Tourism™ is another industry initiative from Navigate Oceania matching industry ideals of green, clean and sustainable environments with new accreditations of indoor environments.
